

# Open Science Droplets

Practical demonstrations at IAA

# Purpose

- ▶ Make our research more flexible, efficient, collaborative and open
- ▶ Build a community to share know-how
- ▶ Discover and share tools and practices
- ▶ Promote Open and Reproducible Science

# Material

- ▶ Github repository:  
<https://github.com/spsrc/droplets>
- ▶ Documentation (Open Science Droplets):  
<https://droplets-spsrc.readthedocs.io/>

# Logistics

- ▶ Open for everyone to participate!
- ▶ Regular meetings twice a month
- ▶ You bring your coffee, we bring cookies
- ▶ Demonstration sessions to showcase tools
- ▶ Open for questions, discussions and networking

# What to expect

- ▶ Show, don't tell
- ▶ Details will be provided in Reference Material
- ▶ Informal presentations
- ▶ Training plan will evolve depending on feedback

# Plan

To progressively incorporate new tools:

- ▶ Jupyter notebook: the XXI century lab book
- ▶ Collaborative science using Github
- ▶ Keep your software organized with Conda
- ▶ Python interactive visualization
- ▶ Share your results with the World with Binder
- ▶ Reproducible workflows to rule them all: Snakemake
- ▶ Fill your containers with software: Docker and Singularity
- ▶ Your work for posterity: Zenodo
